

Data Sheet 5.61-10/1

Software Option for Workstation, Type HiRES IAS WS

General

This option is specially for the offline usage (without measuring hardware) of the software HiRES IAS. Off-line functions of other optional packages can be activated in agreement with HIGHVOLT.

Software requirements

The HiRES IAS WS is an option of the main software HiRES IAS (see Data Sheet 5.61-1), that means, the main software HiRES IAS is necessary to use HiRES IAS WS.

Features

Allows tests to be re-evaluated with a defined evaluation macro and makes it possible to create test reports at a workstation without measurement hardware.
